PROFESSIONAL EXPERIENCE

Code Galaxy ITES - Durgapur

PHP Developer || DEC 2021 - SEP 2024

- Developed and maintained web applications using PHP, CodeIgniter, MySQL, HTML, CSS, JavaScript, jQuery, and AJAX.
- Built backend modules, REST APIs, and managed database operations with optimized SQL queries.
- Implemented payment gateways, admin dashboards, custom CMS, and multi-role user management systems.
- Ensured responsive UI, performance optimization, and deployment using cPanel and VPS environments.
- Collaborated with cross-functional teams to meet project requirements and deadlines.

PROJECT

Gyanjyoti Public School (CodeIgniter)

Full school ERP system with student/teacher panels, attendance, fees, exam management, and admin dashboard.

Satish Chandra Memorial School (React Native)

Mobile app for school management including student details, notices, attendance, and push notifications.

Advance Banking System (CodeIgniter)

Multi-panel system for customer, manager, and employee with loan processing, account opening, KYC/document verification, and secure transaction tracking.

Real Estate Portal (CodeIgniter)

Property listing website with advanced search, lead management, and admin dashboard for managing content and inquiries.

Single Vendor & Multi Vendor E-Commerce (CodeIgniter, Flask)

Complete e-commerce systems supporting product management, cart, checkout, and payment gateway integration, with separate vendor dashboards and order management.

Social Media Platform (Flask)

User login, posting, commenting, and real-time interaction features with API-based backend.
